

# United States Department of the Treasury

## TIME IS MONEY

Conserve. Provide. Stabilize. The United States Department of the Treasury is the steward of the U.S. economic and financial systems - maintaining a strong economy, creating job opportunities, protecting the integrity of the financial system, and managing the U.S. Government's resources in a cost-efficient and timely manner. To support these missions, **Treasury's Information Technology (IT) community** works to improve agency effectiveness, efficiency, and data security.

Treasury strives to be resourceful and efficient. And, the implementation of the Federal Data Center Consolidation Initiative (FDCCI) has pushed this mindset into hyper speed. However, while agencies have enhanced efforts to consolidate and save, research shows that 70 percent of agency IT budgets are still spent on legacy systems. To address these issues, Treasury has focused efforts to consolidate infrastructure and establish efficient, agile services.

### GOVERNMENT ACQUISITIONS: DEDICATED DNA. MISSION MINDSET.

Government Acquisitions, Inc. (GAI) is an IT solutions provider and established consultant dedicated to supporting the Treasury mission. We understand that success is driven by partnership, process, and technology. Backed by over 25 years' experience, GAI's team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.

Since 2000, GAI has worked to support Treasury missions and programs such as IT modernization, Telework, EOPs, and MeF initiatives. Today, GAI provides Treasury with support ranging from virtualization, enterprise back up, and data center consolidation, to secure file transfer and simplified co-termed warranty solutions. Further, GAI has helped implement secure, encrypted file transfer mechanisms for IRS internal and external data transfers.

"We appreciate all that you do for us day in and day out." - Contracting Officer Representative, IRS

### TREASURY CONTRACTS:

- ▶ Dell BPA TCV Contract: TIRNO-14-Z-00007
- ▶ NASA SEWP V - B (SDVOSB) and C (Small Business)

### RECOGNITION:

IRS Small Business  
Partner of the Year

Top 50 Systems  
Integrators - *FCW*

2014 & 2013 Top 100 Government  
Contractors - *Washington Technology*

2013 Solution Provider 500 - *CRN*

# DEDICATED TO YOUR GOALS

## TREASURY WORKS TO:

## GAI WORKS TO:

ALIGN IT INVESTMENTS WITH  
MISSION PRIORITIES

- ▶ Implement complete lifecycle methodologies
- ▶ Assess, design, install, and optimize
- ▶ Improve performance and respond to change

LEVERAGE IT TO INCREASE  
EFFICIENCY AND ACHIEVE  
COST SAVINGS

- ▶ Virtualize infrastructure with Infrastructure as a Service (IaaS)
- ▶ Build applications with ease and speed with Platform as a Service (PaaS)
- ▶ Access software anywhere, anytime, without hassles with Software as a Service (SaaS)

REDUCE TOTAL NUMBER OF  
TREASURY DATA CENTERS

- ▶ Modernize and virtualize storage and servers
- ▶ Design an energy-efficient data center
- ▶ Automate data center management

ENHANCE NETWORK  
INFRASTRUCTURE

- ▶ Enhance network security
- ▶ Reduce network downtime
- ▶ Modernize management network support

IMPROVE THE CYBER  
SECURITY OF OUR NATION'S  
PUBLIC SECTOR

- ▶ Centralize endpoint security management
- ▶ Ensure secure networks
- ▶ Protect applications

MAXIMIZE THE USE  
AND SHARING OF DATA  
TO ENHANCE SOUND  
DECISION-MAKING

- ▶ Visualize and analyze data
- ▶ Optimize databases
- ▶ Master data management

IMPLEMENT MOBILITY AND  
TELEWORK STRATEGIES

- ▶ Optimize data delivery
- ▶ Unify communications
- ▶ Simplify service maintenance

## DEDICATED TO TREASURY PROGRESS

Looking ahead, there is opportunity for **security** and **mobile** solutions to make a big impact – from protecting critical data, to enhancing workforce productivity. Today, cyberattacks targeting Federal agencies have soared over 650 percent within the past five years. This greatly increases the need for cyber security measures – in fact, 95 percent of Feds believe they are an absolute necessity. When looking at mobility, research shows Feds are more productive as a result of mobile solutions, gaining nine hours per week, per employee, translating into more than \$28 billion in productivity annually. Mobility options open the door to Telework, offering flexible, time/cost savings opportunities. GAI can support Treasury's mission to manage information as a strategic asset – securely – from identifying new ways to reduce operating expenses, to enhancing financial and market analysis.
