Government Acquisitions

Data Center Modernization

BUILD THE FEDERAL DATA CENTER OF THE FUTURE

We have new opportunities to improve efficiency and deliver mission innovation. We can redefine tomorrow with big data, cloud, mobile, and social. More than 70 percent of Federal IT budgets go to maintaining legacy systems—that's terrible math. More than 75 percent of Feds say their agency needs a more flexible IT framework. Beyond meeting Federal Data Center Consolidation Initiative (FDCCI) goals, agencies need new solutions, new models, and trusted expertise to navigate options and make the transition. Government Acquisitions, Inc. (GAI), a HUBZone certified small business, presents data center modernization solutions that ensure complete data life cycle management. Data center modernization supports your mission by:

▶ Regaining data center administrative control and automating provisioning and management

▶ Reducing the total number of servers and energy consumption for power and cooling

▶ Protecting critical data and ensuring Continuity of Operations (COOP) and Disaster Recovery (DR)

▶ Virtualizing storage, desktops, applications, and networks

MODERNIZE AND VIRTUALIZE STORAGE AND SERVERS
Create a common platform to manage growing data storage demands.

DESIGN AN ENERGY-EFFICIENT DATA CENTER
Turn on modular, energy-efficient, green data centers to cut energy costs and slash downtime.

PROTECT CRITICAL DATA
Deliver processes, policies, and procedures to enable COOP & DR.

AUTOMATE DATA CENTER MANAGEMENT
Integrate IT and management disciplines to centralize monitoring and management of data center infrastructure.

COST-EFFICIENCY, QUALITY, AND COMPLIANCE IN THE MOST COMPLEX ENVIRONMENTS

GAI, a HUBZone certified small business, brings over 30 years of dedication to Federal mission success, and a performance culture to power real innovation.

CENTRALIZED CONTROL

GAI's mature expertise and data center management capabilities provide an Information Technology Infrastructure Library (ITIL)-based approach to centrally manage data center information assets.

DEDICATED TO YOUR SUCCESS
FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As we help you virtualize, deliver highly efficient converged infrastructures, and rationalize applications – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

▶ Advanced capabilities with competitive pricing

▶ Mature, pragmatic, and collaborative team

DEDICATED TO RESULTS

Data center modernization reduces server counts and energy consumption, eases administration, and paves the way to cloud computing.

A mission mindset is in our DNA. We understand that success is driven by partnership, process, and technology. GAI's experienced team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.
