

Hyper Converged Analytics Platform (HyperCAP)

THE NEXT-GENERATION CYBER SECURITY SOLUTION

Today's cyber threats are increasingly complex – the number one target? Government organizations. More than 95 percent of agencies have at least 10 malicious infections bypass security mechanisms each week. Federal agencies must elevate current cyber security strategies to match the advanced level of adversaries, warranting a solution that will detect and prevent attacks before they occur.

Partnering with industry-leading OEMs, Government Acquisitions, Inc. (GAI) provides agencies with a cutting-edge cyber solution: The Hyper Converged Analytics Platform (HyperCAP). Integrating and optimizing technologies from DellEMC VxRail, Splunk, and Palo Alto Networks, HyperCAP provides agencies with a fully-validated end-to-end data analytics solution for IT and security operations. The base of the solution infrastructure, the DellEMC VxRail of Web-scale Converged Appliances, provides server and storage resources to deploy fast and scale easily. Splunk collects machine-generated data for threat correlation and data breach investigations, while Palo Alto Networks provides real-time cyber threat detection and remediation.

The HyperCAP solution:

- ▶ Performs network forensics and Advanced Persistent Threat (APT) analysis
- ▶ Identifies privileged accounts and executes compliance monitoring
- ▶ Obtains holistic views of agency security posture and network hygiene
- ▶ Investigates and responds to threat alerts and trends
- ▶ Determines malware impact across agencies
- ▶ Provides cyber forensic analysis for incident responders

STREAMLINED SELECTION

Streamline approval processes with HyperCAP best-of-breed vendors and technologies.

REAL-TIME DETECTION

Monitor data in real time to proactively prevent cyberattacks.

INCREASED AWARENESS

Achieve a 360-degree view of your cyber threat landscape.

HyperCAP
Converged Analytics Platform

SECURITY, VISIBILITY, AND COMPLIANCE IN THE MOST COMPLEX ENVIRONMENTS

GAI brings over 25 years of dedication to Federal mission success and a performance culture to power real innovation.

ADVANCED AGENCY AWARENESS

GAI's HyperCAP solution provides agencies with the real-time, advanced cyber solutions needed now to protect data from attacks tomorrow. The hyperconverged infrastructure improves scalability and reduces risk, all while improving visibility.

DEDICATED TO YOUR SUCCESS FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As you enhance your cyber security strategies to detect and prevent in real time – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

- ▶ Advanced capabilities with competitive pricing
- ▶ Mature, pragmatic, and collaborative team
- ▶ World-class partner ecosystem including:

DEDICATED TO RESULTS

A mission mindset is in our DNA. We understand that success is driven by partnership, process, and technology. GAI's experienced team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.

FOCUSED ON YOUR MISSION

GAI's HyperCAP solution helps agencies monitor, detect, and prevent cyberattacks in real time. With its cost-efficient and timely architecture, Feds can spend less time putting the pieces together, and more time on the mission at hand.
