

Tactical Communications Anywhere Platform (TacticalCAP)

NEXT-GEN FIELD DEPLOYABLE COMMUNICATIONS SOLUTION

When disaster strikes, every second counts. The ability to establish and maintain reliable, effective communications during times of natural or manmade disasters is critical to saving lives. When traditional communications infrastructure is down or not available, an end-to-end solution leveraging troposcatter is the best solution.

Partnering with industry-leading OEMs, Government Acquisitions, Inc. (GAI), a HUBZone certified small business, provides agencies with the next generation field deployable communications solution: The Tactical Communications Anywhere Platform (TacticalCAP). TacticalCAP supplies agencies with an extremely reliable, high bandwidth, low latency communications solution. Integrating and optimizing technologies from Comtech Systems, Nutanix, Intel, CommVault, DellEMC & Kestrel Technology, TacticalCAP provides agencies with high capacity, high reliability, and no delay IP-based communications system. These systems are wholly-owned by the user, and do not rely upon any third-party equipment or services. A properly designed troposcatter solution can provide high availability over the complete life of the system, without incurring any ongoing expenses for bandwidth.

GAI TacticalCAP solution:

- ▶ Provides a reliable infrastructure with flexible communications options and worldwide support
- ▶ Provides significant upfront cost savings through software defined infrastructure
- ▶ Assists in the deployment of critical applications in remote areas and hostile environments through fully ruggedized form factors
- ▶ Rapid tactical deployment for on-demand high bandwidth interoperable communications across cellular LTE/3G/4G bands & WiFi
- ▶ Meets FIPS 140-2 and Common Criteria Requirements

KNOWLEDGE BASE

Access to agency specific apps and information in remote locations.

SEARCH & RESCUE

Real-time operational intelligence for first responders in the field.

LOGISTICS

Multi-location, field based communications deployed data center.

SECURE & INTEROPABLE COMMUNICATIONS ON DEMAND WHEREVER THE MISSION REQUIRES

GAI, a HUBZone certified small business, brings over 30 years of dedication to Federal mission success and a performance culture to power real innovation.

ADVANCED AGENCY AWARENESS

GAI's TacticalCAP solution provides agencies with the ability to take their critical infrastructure and applications out into the field. The troposcatter communications technology provides secure transmission of data, rapid field response, and low latency.

DEDICATED TO YOUR SUCCESS FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As you enhance your cyber security strategies to detect and prevent in real time – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

- ▶ Advanced capabilities with competitive pricing
- ▶ Mature, pragmatic, and collaborative team
- ▶ World-class partner ecosystem including:

DEDICATED TO RESULTS

A mission mindset is in our DNA. We understand that success is driven by partnership, process, and technology. GAI's experienced team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.
