

Big Data Analytics

BUILD BIG DATA'S FUTURE

Big Data has the potential to transform the government by substantially increasing efficiency, enabling smarter decisions, and according to Feds, saving nearly \$500 billion – or 14 percent – of agency budgets across the Federal government. Federal executives say big data will also help improve processes, enhance security, and help predict trends. With the growth of the Internet of Things and associated influx of data from sensors and devices, agencies have taken steps to prepare – nearly one-fourth have launched at least one big data initiative. However, just 31 percent of Federal agencies believe they have a sufficient big data strategy. Government Acquisitions, Inc. (GAI) provides big data analytics solutions to help Federal agencies protect and analyze big data, ensuring efficient processes and effective results. Big Data Analytics support your mission by:

- ▶ Detecting fraud, waste, and abuse
- ▶ Identifying and mapping terrorist and criminal activities through large-scale data analysis
- ▶ Analyzing security incidents and geospatial scientific information
- ▶ Preventing cyberattacks
- ▶ Analyzing biometric data to collectively provide intelligence in the field

VISUALIZE AND ANALYZE DATA

Process large data sets efficiently and effectively.

OPTIMIZE DATABASES

Refine and develop database structures to create fast, efficient, and reliable platforms.

MASTER DATA MANAGEMENT

Implement processes, standards, and tools to consistently define and manage critical data.

COST-EFFICIENCY, QUALITY, AND COMPLIANCE IN THE MOST COMPLEX ENVIRONMENTS

GAI brings over 25 years of dedication to Federal mission success, and a performance culture to power real innovation.

DETECT THE NEXT

GAI's big data analytics solutions provide agencies with the analytics and detection software necessary to utilize big data to its fullest.

DEDICATED TO YOUR SUCCESS FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As we help you collect, sort, and analyze data – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

- ▶ Advanced capabilities with competitive pricing
- ▶ Mature, pragmatic, and collaborative team

DEDICATED TO RESULTS

Big data analytics help to provide valuable insight, whether it's fraud detection or critical information analysis.

A mission mindset is in our DNA. We understand that success is driven by partnership, process, and technology. GAI's experienced team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.

FOCUSED ON YOUR MISSION

GAI's big data analytics solutions help agencies detect fraud, track threats, collect data, and analyze information in a cost-efficient and timely manner, so Feds can spend less time sorting information, and more time on the mission at hand.
