

Cyber Security

BUILD A SECURE FEDERAL FUTURE

Federal agencies are vulnerable to a wide variety of cyber security threats, including breaches involving mobile devices and denial-of-service attacks. In fact, cyberattacks targeting Federal agencies' networks, systems, and websites have soared over 650 percent within the past five years. This cyber risk jeopardizes the confidentiality and integrity of sensitive government and citizen information. However, with every new cyber threat comes new prevention opportunities – opening the door to cyber security innovation. Ninety-five percent of end users and Federal cyber pros believe the deployment of cyber security measures is an absolute necessity to protect agencies from cyber threats. With high-level cyber security capabilities, Government Acquisitions, Inc. (GAI) can assist agencies with cyber threat prevention and address various vulnerabilities, risks, and compliance issues. Cyber security supports your mission by:

- ▶ Isolating, detecting, remediating, and preventing Advanced Targeted Attacks (ATA), as well as Advanced Persistent Threats (APT)
- ▶ Enhancing network, endpoint, storage, mobile, and application security
- ▶ Mitigating compliance, governance, and risk
- ▶ Preventing network intrusions through unified threat management, network admission control, security log forensics, and firewall intrusion detection systems/intrusion prevention systems (IDS/IPS)

CENTRALIZE ENDPOINT SECURITY MANAGEMENT

Combine the distribution of security software to end user devices with centralized management.

ENSURE SECURE NETWORKS

Identify security threats and deploy effective tools to combat.

PROTECT APPLICATIONS

Utilize software, hardware, and procedural methods to protect applications from external threats.

SECURE STORAGE

Authenticate and encrypt stored data to ensure data security.

MONITOR AND MANAGE MOBILE DEVICES

Secure, monitor, manage, and support mobile devices deployed across mobile operators, service providers, and agencies.

COST-EFFICIENCY, QUALITY, AND COMPLIANCE IN THE MOST COMPLEX ENVIRONMENTS

GAI brings over 25 years of dedication to Federal mission success, and a performance culture to power real innovation.

SECURE SOLUTIONS, SO AGENCIES CAN REST ASSURED

GAI's cyber security capabilities provide agencies with the cyber threat prevention solutions they need.

DEDICATED TO YOUR SUCCESS FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As we help you monitor and maintain data security – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

- ▶ Advanced capabilities with competitive pricing
- ▶ Mature, pragmatic, and collaborative team

DEDICATED TO RESULTS

Cyber security solutions protect agency data and systems from cyberattacks, thereby safeguarding the future of agency assets.

A mission mindset is in our DNA. We understand that success is driven by partnership, process, and technology. GAI's experienced team members work side-by-side with Federal IT executives and industry-leading OEM partners to modernize, optimize, and deliver unparalleled mission support.

FOCUSED ON YOUR MISSION

GAI's cyber security capabilities address threats, vulnerabilities, and compliance issues individually or as an enterprise.
