

Mobility & End User Computing

BUILD A MOBILE FUTURE

New mobile trends open doors to a more productive, cost-efficient government. Feds believe they are more productive as a result of mobile devices, gaining on average nine hours per week. This translates into more than \$28 billion in productivity gains annually. However, while agencies are taking mobile security steps, Bring Your Own Device (BYOD) security risks are not yet locked down; just 11 percent of Feds who use personal devices for work say their agency has a BYOD policy. And, while mobile devices increase productivity, storing work email on devices, coupled with lack of password protection, is a recipe for disaster without the proper support in place. Government Acquisitions, Inc. (GAI) provides mobility and end user computing solutions to help government agencies harness mobility securely. Mobility and end user computing supports your mission by:

- ▶ Lowering overall facilities and technology costs
- ▶ Converging voice, video, and data communications into single devices
- ▶ Improving data security and compliance
- ▶ Achieving compliance with the Federal Telework Enhancement Act of 2010 and BYOD initiatives
- ▶ Reducing overall desktop management costs
- ▶ Optimizing the delivery of desktops, applications, and data to users through Virtual Desktop Infrastructure (VDI) technologies

OPTIMIZE DATA DELIVERY

Enhance delivery of desktops, applications, and data to users anytime, anywhere.

UNIFY COMMUNICATIONS

Integrate voice, data, video, and conferencing capabilities, securely.

SIMPLIFY SERVICE MAINTENANCE

Ease the maintenance process of computational services and reduce total cost of ownership.

COST-EFFICIENCY, QUALITY, AND COMPLIANCE IN THE MOST COMPLEX ENVIRONMENTS

GAI brings over 25 years of dedication to Federal mission success, and a performance culture to power real innovation.

MOBILIZE MISSIONS

GAI's mobility and end user computing solutions ease the delivery and management of desktops and applications while improving security and end user experiences.

DEDICATED TO YOUR SUCCESS

FOCUSED ON SUPPORTING YOUR MISSION

GAI delivers the expertise to power Federal innovation. Changing course on a dime? No problem. As we help you implement secure mobile devices and applications – we know it's all about the mission. Protecting citizens. Supporting critical infrastructure. Delivering cutting-edge research and development. GAI is dedicated to empowering Federal missions with new efficiencies and agility. We deliver:

- ▶ Advanced capabilities with competitive pricing
- ▶ Mature, pragmatic, and collaborative team
