

# Work with Our Team of Award-Winning UiPath Experts

GAI Automation is redefining the relationship between humanity, technology, and work

“

*“Working with GAI has been the most comprehensive, yet simplistic, presentation of the end-to-end application of RPA. The focus on value-add at each step and element was helpful in framing our RPA program approach internally.”*

- Associate Director, EPA

## OUR CAPABILITIES

### Automation Services

**Certified:** UiPath Advanced RPA Developer (UiARD) certified and screened to provide UiPath services.

**Cleared:** Able to provide services in cleared environments up to TS/SCI.

**Vision & Proven Expertise:** We see the **big picture** and deliver on the whole mission. Leveraging process improvement and expert facilitation, we guide our clients through problems so they can adapt and **thrive**—quickly creating tangible and quantifiable ROI.

### Licensing and Hardware

**License Procurement:** From some of UiPath’s largest agency-wide enterprise bundles to individual licenses, we help get federal agencies the **licensing they need** so they can experience **efficiencies** and technology breakthroughs.

**Solution Design:** Our engineering team works with Dell and HPE to provide properly-sized **infrastructure** to support **unique** deployment needs.

### Training

**Workshops:** Get acquainted with Automation terminology, market trends, and use cases in the **Public Sector**.

**Build-a-bot:** See first-hand how **quickly** and **easily** bots are built.

**Certification:** Take technical skills to the **next level** by working towards a UiPath RPA Associate (UiRPA) or UiPath Advanced RPA Developer (UiARD) **certification**.
