GAI at a Glance

Government Acquisitions

#GAIisAI

Government Acquisitions, Inc. (GAI) is a leader in providing practical, end-to-end IT solutions to the federal government focusing on Artificial Intelligence, Automation, Analytics, Zero Trust, and the Infrastructure to support every step of the way.

Backed by over 30 years' experience, GAI's team members work side-by-side with your agency and our IT partners to modernize, optimize, and deliver unparalleled mission support. #GAIisAI

ARTIFICIAL INTELLIGENCE

GAI applies the power of AI to practical applications and delivers tangible results across civilian, DoD, and health care use cases.

ANALYTICS

GAI turns data into actionable knowledge by applying analytics to large, disparate data sets including structured and unstructured data, from agency siloed applications to multi-tenant data lakes.

AUTOMATION

Hand-in-hand with AI is our automation practice, using Robotic Process Automation to increase productivity, accuracy, and lower cost.
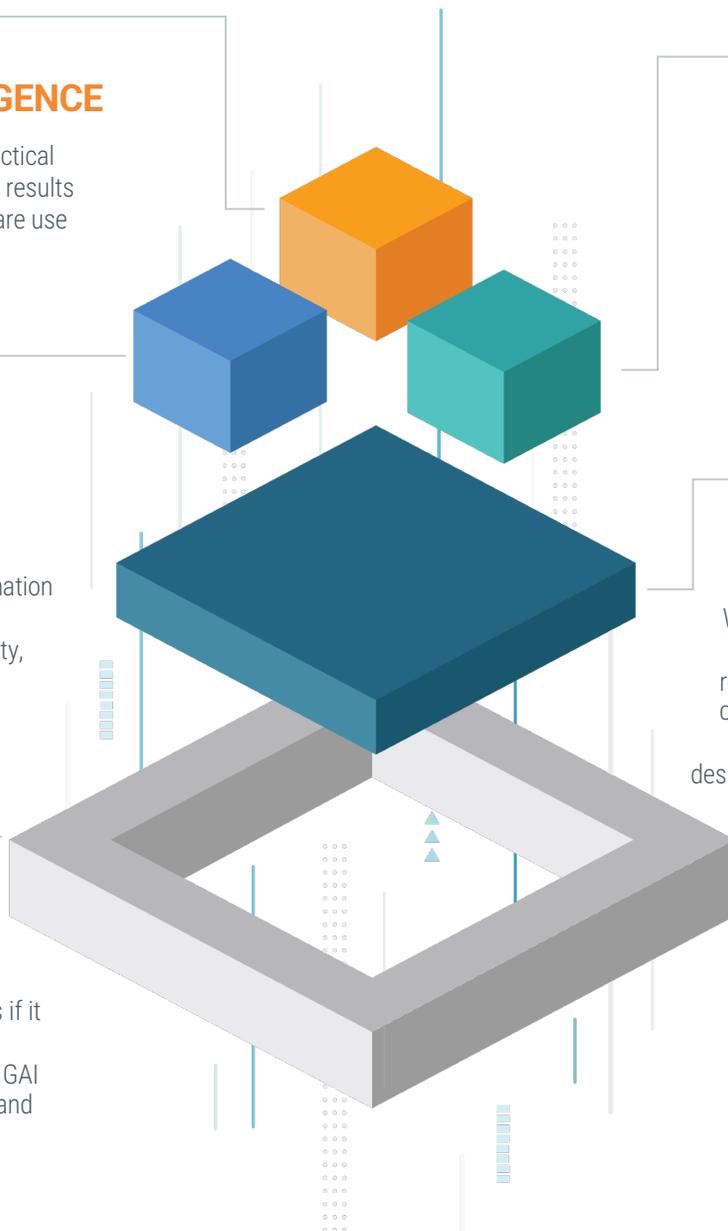

INFRASTRUCTURE

Whether on premise, in the cloud, or hybrid these advanced capabilities require adaptable, high performance compute and storage environments. Teamed with leading OEMs, GAI designs and deploys perfectly matched infrastructure.

ZERO TRUST

Precise data becomes dangerous if it falls into the wrong hands. By building on Zero Trust principles, GAI secures and verifies the outputs and processes of each of the above disciplines.
